Hydration Packs

SOURCE is the only hydration system in the market with a Glass-Like film that requires almost no maintenance to stay clean and bio-film free.

The Tactical 3L Hydration Pack is our most popular hydration system. It can be worn backpack style, inserted in a packpack, or directly attached via MOLLE on vests or backpacks using the QCA buckle system.

AVIATION

Part Number	Description
4334097051501	Vacuum, Pneumatic, 15Gal., Pad-Eye Vacuum System w/Vertical Venturi
469627210	 Vacuum, Industrial Wet/Dry Vac, 16 Gallon, 120V, 6.25 HP, Nozzle Accessories
6779034000	 Filter, HEPA, For Shop-Vac 469627210
4661472	Vacuum, Pneumatic, Raptor Vac Backpack Style, 1.5 Gal
48915561001	  Nozzle Kit, Replacement Parts for Type SB Stainless Steel
456MFSM36	 Magnetic Floor Sweepers, 11.8 lb, 36" Sweeping Width

15 Gallon Stainless Steel Flight Deck PadEye Vac

Features:

- High Efficiency Vertical Venturi designed for use with ship LP Air Systems.
- FOD Free for Flight Deck use – no bearings.
- Automatic Shut-Off: Float ball and cage for wet use.
- Tank: Stainless Steel with triple ribs.
- Vacuum Inlet: Locking to prevent accidental contamination.
- Dolly Cart: Low Profile Tip Resistant with handle.
- QAV technology reduces noise (does not exceed 80 dba).
- 25' crush-proof hose with locking end and swivel cuff.
- PadEye Extraction Wand and attachments for CVN and Amphibious class ships.
- Complies with SECNAVINST 5720.42, OPNAVINST 3750.6 Series and OPNAVINST 5102.1 Series, dated May 22, 2015.

DAMAGE CONTROL

Structural Turnout Gear

Comfort Chinstraps (optional)
Curved design for better fit and less irritation

Articulating Drag Rescue Device
Adjusts to maintain equal leverage on a downed firefighter even when pulling from an angle (patented)

New Shoulder/Arm Pattern
Increased arm mobility when reaching and more even weight distribution across shoulders

Forward Flex™ Sleeve
Patented design eliminates undesirable sleeve retraction when reaching up or forward

Continuous 360° Protection
Outer shell, moisture barrier, and thermal barrier overlap at coat facings, collar linings, and pant fly to give uninterrupted protection

Large Inspection Ports
Patented feature allows for easier inspection of thermal liner and moisture barrier

Standard snap tab
Keeps shell and liner aligned

Full Access Fly
Easier donning and doffing

Full Range of Motion Crotch
Patented U-shaped design and diamond shaped insert allow greater leg mobility (patented)

Reshaped Neck/Collar
Contoured fit for more natural comfort around the neck and across the shoulders

Kinetic Kut™ Styling
Significantly reduces hem rise and sleeve retraction, allowing for greater range of motion and protection (patented)

Single Seam Sleeves
Innovative design eliminates second seam, reducing wear point

Waterproof Wristlets
Double-layer tough and durable Nomex® wristlets with continuous moisture barrier provide a liquid seal at the wrist (patented)

Hybrid Long Tabbed Wristlets
Durable and comfortable thumb locator option doesn't interfere with glove donning

Double Stitched Trim
Higher durability

Tails™ System
Reduces weight, increases range of motion and eliminates bunching when bending forward. Also increases visibility from behind and improves torso ventilation

New Liner Attachment
More robust attachment, easier to remove liner from shell

Low-waist Comfort Pant
Increases mobility at waist, reduces weight, and allows for more ventilation
- feels like a pair of jeans
- wears like a pair of jeans
- rides like a pair of jeans

Seam Guards
Placed over trim threads at high-abrasion areas on the coat and pant to reduce wear (patented)

Better Pant/Boot Interface
Easier to store pants on newer style boots

Morning Pride Pro Fit Pant

Take comfort to the next level with our new Morning Pride® Pro Fit Pant. This new design combines the best of both worlds – the tailored professional fit you have come to expect from Morning Pride, along with improved mobility through a more modern fit. It's still a Morning Pride pant, so you can trust the high quality and durability, and of course find a rich selection of optional features.

The innovation on the Pro Fit pant isn't just that we lowered the front to sit at the hips, for the most preferred fit today. We also realigned the rest of the pant for a less bulky crotch, a properly aligned knee position that eliminates knee roll, and reduced cuff retraction. You'll feel the difference in the ease of movement, eliminating stress and making your job easier.

The Morning Pride Pro Fit is available in all fabric composites, with most options offered in the current Morning Pride TAILS line. The base garment comes standard with the following:

- Kevlar®-lined bellows pockets with 3:1 hook and pile, and easy grip
- Half-angle cuffs with Ara-shield® trim
- Narrow fly with hook and pile, and reverse hook on tab
- Take-up straps

NFPA 1971 certified

Lower waist in front while keeping enough coverage in the back (NEW)

Full range of motion crotch

Horizontal seaming to increase flexibility and movement (NEW)

Pleated knees for added flexibility (NEW)

Seam Guard placed over trim threads at high-abrasion areas of pants to reduce wear (patented)

Reduced cuff retraction (NEW)

Honeywell

DAMAGE CONTROL

Honeywell Morning Pride Gear Shield helps to significantly reduce the amount of dangerous, potentially **cancer-causing toxins** that can reach your skin.

Head Shield

The MaskMate™ Hood with STEDAIR® PREVENT blocks 99.9% of particulates, protecting the vulnerable areas on the face and neck (compared to 20-40% for conventional, non-barrier hoods). It is also breathable, soft, and flexible while providing high levels of thermal insulation.

Arm Shield

Dual coverage at the wrist: A contoured 360° shingle cuff prevents particles from getting to the wrist, while still maintaining wrist flexibility. An extension of the moisture barrier from the water well into the glove greatly reduces those particles that do pass the cuff from depositing on the arms.

Heat Release Liner

The centerpiece of our Honeywell Morning Pride Gear Shield package is our Heat Release Liner. While the Arm Shield, Leg Shield, and Core Shield features all provide extra particulate protection, they also trap more body heat compared to current gear. The Heat Release Liner, with its patent-pending installation of multiple vents, allows for heat trapped inside the liner to escape faster upon exiting the fire.

Leg Shield

A patented telescoping water dam at the ankle cinches around the boot and adjusts up and down with your movement to significantly reduce the deposition of particles higher on the legs.

Core Shield

An angled band with elasticized edges comfortably conforms to your midsection when your coat is closed to reduce particle ingress at the coat and pant interface. The front of the Core Shield uses Nomex® versus a thermal liner to lower heat build-up and requires no extra steps when donning and doffing.

- Tube Opener
- accuro Pump
- Spare Parts Kit
- Dräger-Tubes

Honeywell

The Honeywell BW™ Ultra is a five-gas detector from Honeywell that is designed specifically for sampling and monitoring confined spaces, before and after entry. It benefits from unmatched sensor technology, visibility on gas readings, comfort, and connectivity – even in most extreme working conditions. The Honeywell BW™ Ultra simultaneously detects the four gases you're required to monitor in confined spaces. Plus there is a fifth sensor for the gas of your choice. This way you can add a fifth level of protection for your confined-space entries.

LED Lighting

Available on

SP47W1-17-D-0028

24" 10W T12 4100K
PART: 74FLZT12G24

Designed for use in M16377 fluorescent fixtures. The LED tube works with or without the ballasts. This lamp is suitable for use in all M16337/8, /11, /12, /44*, /57, /72*, /73, /74, /75, /77, /80, /81 and /83 fixtures. Available in White, Red, and Blue.

48" 20W T12 4100K
PART: 74FLZT12G48

Designed for use in M16377/13 fixtures, and other 48" applications. For use in below deck, and exposed below deck applications. Only 20W of power, compared to the existing 56W fluorescent.

18" 8W T12 4100K
PART: 74FLZT12G18

Designed for use in M16377/5, /18 fixtures, and other 18" applications. This lamp is designed to operate with or without the ballast. Uses 50% less energy than fluorescent, only 8W compared to 15W.

24" 10W T8 4100K
PART: 74FLZT8G24

Designed for use in M16377 fluorescent fixtures. The LED tube works with or without the ballasts. This lamp is suitable for use in all M16337/77A, /78A, /79A, /80A, /81A, /82A, /83A, /84A, /85A fixtures. *Ford Class Carriers & LCS's only

12" 5W T5 4100K
PART: 74FLZT5G12

Designed for use in M16377/7B, /14B or other T5 lamp fixtures. This lamp is designed to operate with the ballast. Uses 35% less energy than fluorescent, only 5W compared to 8W.

Shipboard & Shore Lighting

65W WATERLINE SECURITY LIGHT
PART: 74EXPAL115654060

Explosion proof LED Waterline light fixture. Designed to mount to existing 2" diameter pole. Ultra high efficiency with up to 10,350 lumens, at 4100K. UL844 approved for shore use. IP66 rated. Replaces fixture M16377/61 with 60° beam angle.

LED BULBS
PART: 74LBA193115 (Specify Color)

Quickly replace the existing incandescent lamps in small globe fixtures, friendship lights or other applications. Available in standard 4100K White, NVIS Blue, NVIS Red, NVIS Yellow, NVIS Green A. 3W lamps replace a standard 50W light, for up to 90% energy savings.

24" and 48" Non-Combat Ship Fluorescent Replacement
FLW Series

For non-combat ship fluorescent replacement. For use in any 24" or 48" retrofit application for shipboard use. UL1598 approved. Saves approximately 40% of electricity

48" 15W T8 or T12 Replacement
FLA Series

For shore building retrofits. For replacement of any T8 or T12 lamp, in accordance with UFC-3-350. Works with the existing, qualified, ballasts. TAA and/or BAA compliant product.

Flowmeters

FLUXUS F401

Heavy duty portable ultrasonic water flow meter
Long-term operation, robust design, accurate measurements

43F401SM - Small Pipe (1"-8")

- Black case sold separately -

- Product variant: FLUXUS® F401
Pipe diameter range: 1" - 8"
Pipe material: All
Media: Water / Wastewater
Battery lifetime: Several months (depending on measurement interval)
Solid or gas content: up to 6 % in volume
Flow velocity: 0.01 ... 25 m/s
Accuracy: $\pm 2\%$ of reading ± 0.01 m/s
Repeatability: 0.25 % of reading ± 0.01 m/s
Transducer cable length: 19 ft
Transducer protection degree: IP68
Transducer coupling material:
 Pads (for long-term installations)
 and gel (for short-term installations)
Transmitter protection degree:
 IP67 (housing closed)
Number of flow measuring channels: 1
Communication options: RS232
Data logger: > 100,000 values
Outputs: 1x Current, 1x Binary

ENGINEERING

FLUXUS F601

Industrial Portable Flowmeter
43F601

Measurement uncertainty
(volumetric flow rate): $\pm 1\%$ of reading ± 0.02 ft/s

Repeatability: 0.15% of reading ± 0.02 ft/s

Flow velocity range: 0.03 to 82 ft/s

Ex zone transmitter: only safe area

Power supply: Li-ION 7.2V/6.2Ah Operat. time >25h

Available transducer: Shear wave
for Ex zones: ---

for pipe sizes range: 0.24 inch to 255.9 inch

for temperature range: -40°F to $+392^{\circ}\text{F}$ /
WI: -328°F to $+1112^{\circ}\text{F}$

Outputs: 4-20mA active/passive
pulse/frequency/binary

Inputs: Pt100/Pt1000
4-20mA passive

Digital communication: Modbus RTU

- MIL-V-15020 Flush Valves, Type I & II
- MIL-S-16293 Strainers, Bronze, Steel & Iron
- MIL-V-17501 Magazine Sprinkler Valve, Bronze, UESB & Flanged
- MIL-V-17547 Navy Check Valve, Type A & B, Class 1 & 2, Bronze Flanged 100 & 250 LB
- MIL-V-17737 Boiler Blowoff Valve, Steel, CRMO F-22 & Monel, Flanged 600 and 1500 LB
- MIL-V-17848 Steam Reducer, Steel Flanged
- MIL-S-17849 Duplex Strainers, Bronze Flanged, Type II, Class 2
- MIL-V-18110 Gate Valve Steel & CRMO F-11, S/W, B/W & Flanged 150 to 1500 LB
- MIL-V-18436 Check Valve, Steel, Bronze & Iron, Flanged and Socketweld
- MIL-V-19772 Temperature Regulator, Bronze, UESB & Flanged
- MIL-V-20065 Steam Relief Valve, Bronze & Steel, UESB & Flanged
- MIL-V-22052 Globe & Angle Valve, Steel & F-11, B/W & Flanged 150 to 1500 LB
- MIL-V-22094 Globe & Angle Valve, Steel & F-11, S/W & Flanged 600 and 1500 LB
- MIL-V-22133 Butterfly Valve, Bronze Body, Monel Trim, Resilient Seated
- MIL-V-22549 Air Relief Valve, Bronze, UESB & Flanged
- MIL-V-24109 Globe, Angle & Check Valve, O-Seal Type, Bronze, UESB 6000 LB
- MIL-V-24332 Liquid Relief Valve, Bronze, UESB & Flanged
- MIL-V-24384 Air Pressure Reducer, Bronze, UESB
- MIL-V-24509 Ball Valve, Bronze Flanged, 2 way & 3 way
- MIL-V-24509 Plug Valve, Bronze Flanged, 2 way & 3 way
- MIL-V-24578 Gate Valve, Stainless & Monel, 6000 LB
- MIL-V-24586 Barstock Needle Valve, Steel & Stainless, Threaded & S/W
- MIL-V-24624 High Performance Butterfly Valves, Bronze & Stainless
- DWG-1385541 Navy B-135 Globe & Angle Valve, Bronze & Monel, Flanged 100 LB
- DWG-1385623 Navy Y-Pattern Globe Valve, Bronze Flanged 250 LB
- DWG-1385637 Navy Swing Check Valve Type A, Class 2, Bronze Flanged 250 LB
- DWG-1385673 Navy B-136 Globe & Angle Valve, Bronze Flanged 200 LB
- DWG-1385707 Navy Horizontal Scupper
- DWG-1385711 Navy Hose Globe & Angle Valve, Union Bonnet, Bronze Flanged 250 LB, 1 1/2"
- DWG-1385712 Navy Hose Globe & Angle Valve, Bolted Bonnet, Bronze Flanged 250 LB, 2 1/2"
- DWG-1385714 Gate Valve, Bronze UESB, including Indicator Type & Lockshield
- DWG-1385721 Swing Check Valve, Bronze UESB
- DWG-1385789 Deck Drain, CuNi, Bronze & Aluminum, Type A, B, C, D, E, G, H
- DWG-1385901 Marine Main Strainer & Valve, Bronze Silbraze
- DWG-2177525 Globe, Angle, Check Valve, Steel, SS, Monel, S/W & Flanged 600 to 900 LB
- DWG-2177917 Navy Gate Valve, Type I, Class 2, Bronze Flanged 250 LB
- DWG-4384536 Globe & Angle Valve, Bronze UESB, Class A & B, Type 1 thru 5
- DWG-5001003 Bronze Ball Valves, 3-piece Style, 1/4" to 2 1/2"
- DWG-5001004 Bronze Ball Valves, 3-piece Style, 3" to 6"
- DWG-5001057 Drain Strainer Orifice Assembly, Steel, S/W 900 LB
- DWG-5184193 Globe & Angle Valve F-11, S/W, 1500 LB
- DWG-Various Scuppers and Discharge Fittings, Bronze Flanged
- DOD-V-24657 Electric Valve Actuation- Digital Network or Hard Wired

ENGINEERING

Machinery

Part Number	Description
426375	Hydraulic Shear, 6' x 3/8" This shear has the capacity to cut 1/4" diamond plated stainless steel.

Hydraulic Shear, 6' x 3/8" Betenbender, 36" Power Backgauge with LED Readout, 4' Squaring Arm with Inlaid Scale, Power Adjust Variable Rake, Hydraulic Self-Compensating Holddown Bar Assy, Bolt Together Assembly

Pull-X Machines

Part Number	Description
4212308190	 P201 42" Throat Depth 460V 3 Phase Universal Sheet Metal Machine Base Unit

Includes the Following

- Fully capsuled knee-joint mechanism working in oil bath
- Reinforced links system for better rotary stiffness
- 7 different stroke lengths between 1,7 and 7mm
- Variator adjusted stroke frequency between 400 and 4000 strokes/min
- Lower tool holder block, complete, gives quick and easy tool change
- Electric equipment of contactor type and transformer for 100v supply voltage
- Electric motor 1.5 kW, for 220 or 380 V, 50 c/s, 3-phase AC
- Manual mounting of the tool
- Machine bases
- Circle cutting tools
- Grinding gauge
- Spanners
- Instruction and spare part manual
- Standard color blue RAL 5015 and RAL 5024

Talk to your Rayco rep about different options for this item; Beading, Jogging, Punching, Nibbling, Doming, Louvering, Flanging, Edge Bending, Cutting, Slot Cutting, & Special Accessories such as an outer centre attachment, swivelling, circular cutting, & straight cutting.

ENGINEERING

Machinery

Tube And Pipe Notcher TN-800

The TN-800 Tube and Pipe Notcher does what no other tubing notcher on the market can do: notch tube from 1" to 3" OD without any change in tooling, hole saws, or mandrels.

Part Number	Description
42TN800	Tube and Pipe Notcher

Top Benders

Part Number	Description
42050KD	Top Bender Machine, 050KD, Rotary Draw Tube & Pipe
42TB130	Top Bender Machine, TB130, Touch Screen, Digital Display

Metal Cutting Band Saw

Part Number	Description
42BS712M	Bandsaw, Horizontal/Vertical, 7" x 10-1/4", 110V, 1HP, 1PH

Hydraulic Ironworker

Part Number	Description
46P65	Hydraulic Ironworker P65 Model

Key Blanks

Part Number	Description
701092	1092 Key Blank
701176	1176 Key Blank
701179	1179 Key Blank
70A1114A	A1114A Key Blank
70AM3	AM3 Brass Key Blank
701145A	1145A Key Blank
701533	1533 Key Blank
701653	1653 Key Blank
70997X	997X Key Blank
701092NR	1092NR Key Blank

* Various Styles are Available. Ask a Rayco Rep for more information! *

Please Include The Following When Ordering Key Blanks:

Original Manufacturer

ex: Alba
Best
Cole
Curtis
Dominion
Ilco
Kwikset
Orion
Schlage
Yale
ETC...

Purpose- To Fit

ex: Padlock
Door Lock
Tool Case
Safe
Vehicles
ETC...

Material/ Finish:

Bronze
Nickel Plated
Nickel Silver

3D Printing

Consumables

Rayco Supply now provides consumables for 3D Printers.

We can accommodate these popular Filament types along with many others to meet your 3D Printing needs.

If you don't see the material you are looking for, please contact Rayco Supply and we will be happy to locate what will work best for your application.

3D Printer Filament Types

Filament	Characteristic	Best Suited For	Strength 1-5	Durability
PLA	All-natural and Biodegradable	Prototypes and products	3	2
ABS	Strong and durable	End-use parts and casings	3	3
PLA Plus +	Very durable biopolymer	Vibration absorbing and less brittle version of PLA	3	3
Nylon	Extremely durable and flexible, low friction.	High impact or high stress parts - fantastic all-rounder	4	5
PETG	Extremely durable and flexible	High impact or high stress parts	4	4
ASA	Strong, UV resistant alternative to ABS	Outside casings, covers and devices.	4	3
Polycarbonate	Stiff, tough and shatter resistant	Rigid components, strong alternative to glass.	4.5	3
Flexible PLA	Flexible biopolymer	Flexible, durable parts	2	4
TPU	Flexible polymer	Flexible, very durable parts	2.5	5
HIPS	High impact resistance & soluble support	Alternative to ABS, or used as a limonene dissolvable support structure	3	3
PVA	Water soluble support	Easily dissolves in water	2	2
Break-Away	Break-off support	A no mess alternative to dissolvable support materials products	2.5	2.5
Nylon Plus	Glass-reinforced Nylon	Excellent abrasion resistance and low friction	4	5
Carbonyte	Carbon Fibre Nylon	Excellent strength and stiffness	5	5
Floss (Cleaning)	Cleans out residue and carbon buildup	Saves time, prevents nozzle blockages	N/A	N/A
PMMA	All-natural and Biodegradable	Prototypes and products	3	2

What's underneath counts — for safety and performance.
That's why DRIFIRE PRIME™ should always go on first.

With its signature flat-locked stitching, the premium four-way stretch fabric of DRIFIRE PRIME provides maximum flexibility, style and comfort.

- DRIFIRE PRIME™
- Lightweight 6.5 oz. FR fabric with super soft feel
- Supple, four-way stretch increases mobility and range of motion
- Smart-fit and athletic-cut designed to feel like “second skin”
- Offset, flatlock seams for no-rub comfort
- Inherent and permanent flame resistance, moisture management, and odor control
- Dries up to three times faster than cotton
- Made in the USA
